The Second Step Suite and Restorative Practices in Schools

The Second Step Suite and restorative practices in schools share the common goals of supporting the safety, well-being, and success of students by developing positive relationships, fostering school connectedness, and building social-emotional competencies. This document outlines the alignment between the two.

Restorative Practices in Schools

Restorative practices are a schoolwide approach to creating positive school climate based on building, maintaining, and restoring relationships in the school community. Restorative practices include restorative justice, an approach to wrongdoing and harmful behavior based on repairing the harm that has been done and restoring relationships. Restorative justice includes the active involvement of all involved in resolving the wrongdoing or conflict and in restoring a sense of community, including students, school staff, and (where appropriate) family members. Being able to demonstrate relationship-building actions and respond to restorative questions is important for all involved in restorative practices. For more information about restorative practices, see the back page.

The Second Step Suite

The Second Step Suite is a research-based, universal prevention program for Early Learning through Grade 8 students. It is designed to promote school success, school connectedness, and a safe, respectful school climate and to prevent problem behaviors. It does this by teaching self-regulation and social-emotional skills and by addressing bullying and unsafe behaviors. It is developmental and sequential, with skills being reviewed and expanded on each year and gradually becoming more complex as students get older. The program provides clear schoolwide norms for prosocial behavior.

SCHOOL STAFF (ALL GRADES)

One of the core components of the Second Step Suite is that staff model all program skills, remind students to use them, and notice and reinforce skill use in students with specific verbal feedback. All staff are encouraged to do this whether teaching the actual lessons or not.

FAMILIES (ALL GRADES)

Interactive take-home activities focus on the skills taught at each grade level. These encourage dialogue and engagement between adult family members and students, inform adults about the skills taught in the program, and give students and adults frequent opportunities to practice the skills at home.
